

Sajad Hussain Malla

+91 91033 21565 · huxi1314k@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#) · Kochi, Kerala, India

TECHNICAL SKILLS

Languages & Frameworks: Python, C, C++, SQL, TypeScript, Django, Flask, FastAPI, RESTful APIs

Data & Databases: MySQL, MongoDB, Redis, PostgreSQL, SQLAlchemy, Schema Design, Query Optimisation

AI & Agentic Tools: Gemini API, Claude (Anthropic), OpenAI-compatible LLMs, MCPs, SSE

DevOps & Security: Docker, Git, CI/CD, Linux (Kali/Ubuntu), Wazuh (SIEM), Wireshark, Nmap, Metasploit, Nessus, OpenVAS

EXPERIENCE

Software Engineer Intern | *Nippon Toyota Pvt. Ltd. – UTrust Used Cars Division* Jul 2026 – Present · Kochi

- Built internal procurement & inventory tooling for the UTrust platform, reducing valuation-to-listing TAT by **30%** via AI-assisted modules – directly driving a **20% uplift in used-car sales**.
- Migrated records dating to 2014 from siloed legacy systems into a centralised PostgreSQL DB; delivered a Next.js / FastAPI multi-cluster dealer platform (4 clusters) with AI valuation, RC/Vahan verification, and real-time bidding.

Cybersecurity Analyst Intern | *ElevateLabs* May 2025 – Jul 2025 · Remote

- Automated Nessus/OpenVAS scan reporting into risk-tiered CVE schemas; captured live traffic (Wireshark, tcpdump) to detect TCP/DNS/HTTP anomalies across simulated environments.
- Ran full pentest lifecycle (recon, enumeration, exploitation) on Kali Linux; authored a SOC playbook covering password policy, entropy analysis, and incident response procedures.

Tech Lead | *ACES – Assoc. of Computer Engineering Students, CUSAT* Dec 2024 – Present · Kochi

- Organised cybersecurity workshops, coding bootcamps, and competitive programming events for 200+ CS students; managed lab setups and technical resources for departmental hackathons.

PROJECTS

Make-a-ton 8.0 – Hackathon Management Platform | Next.js, TypeScript, Supabase, Tailwind CSS 2025

- Full-stack dashboard with role-based auth, live Supabase Realtime subscriptions, three-stage checkpoint progression, mentorship request queue, and a multi-criteria judge scoring engine (6 rubrics).

Bug Bounty Hunter – AI Security Analyst Platform | Python, FastAPI, Gemini API, SSE, Agentic Architecture Dec 2025

- Gemini LLM agent that detects SQLi, XSS, and business logic flaws; agentic pipelines handle subdomain discovery, endpoint mapping, and PoC exploit generation streamed live via SSE.

ARGUS – Real-Time PPE Detection System | Python, YOLOv8, Roboflow, Django, Computer Vision Feb 2024

- YOLOv8 safety-gear violation detection backend with Django REST API and live alert system; demo approved by BPCL and HP at Dhishna Tech Fest.

Local SIEM & Penetration Testing Lab | Python, Wazuh, Wireshark, Kali Linux, Nmap 2024

- Automated log ingestion and alert parsing on Wazuh SIEM with DNS, TCP/IP, and HTTP traffic capture pipelines across locally deployed vulnerable machines.

EDUCATION

B.Tech CSE (GPA: 8.1) | *Cochin University of Science and Technology (CUSAT)* Jun 2023 – Present · Kochi

Senior Secondary – JKBOSE (423/500, Top 10 Ranker) | *Govt. Boys HSS Magam* 2022 · Budgam, J&K

CERTIFICATIONS & AWARDS

- Awards:** 12x National Hackathon Winner – Huddle Global 2025 (KSUM), Make-a-ton 7.0 (MLH), Code reCET, INKRIT 2.0 & 3.0, HACKnTech | Social Summer of Code (ULSA)
- Certifications:** Google Cybersecurity Analyst (Coursera) | Certified Cybersecurity Educator Professional (Red Team Leaders) | Forage Simulations: Tata, Visa, AIG, Datacom, Air India | IEDC Design Bootcamp Phase II
- In Progress:** CEH | SAL1 (TryHackMe) | IT Security: Defense Against the Digital Dark Arts (Coursera)

ADDITIONAL

Languages: English, Hindi, Urdu, Malayalam (conversational) **Hobbies:** CTFs, Football, Tinkering at Tinkerspace

Volunteer/Organizer: Team Lead Make-a-Ton 8.0, Dhishna Tech Fest, Vibhava CUSAT
